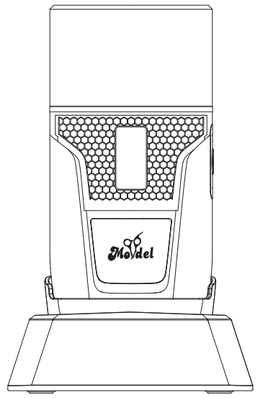
PROFESSIONAL FOIL SHAVER

MODEL ML-9325S



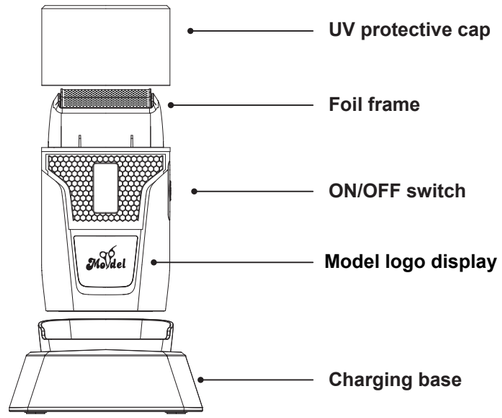
Read before use and keep for future reference.

Important Safeguards

WARNING: Read all instructions before using, charging, cleaning, or servicing the shaver.

- Use only on healthy, unbroken skin.
- Do not use with a dented, cracked, loose, or damaged foil.
- Do not use the shaver while it is charging.
- Keep the charging port, cable plug, and base contacts dry.
- Do not immerse or rinse the shaver body unless it is specifically marked as washable.
- Keep out of reach of children.

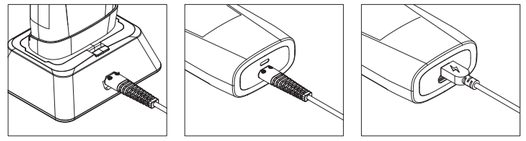
Foil Shaver Overview



Specifications

Model	ML-9325S	Full charge	120 min +/-10%
Input	DC 5V 1A	Battery	1400mAh lithium
Runtime	≥90 min	Motor speed	9000/9500/10000 rpm
Noise	≤65/70/73 dB	Size	125 x 66.5 x 32 mm

Charging & Battery Care



How to recharge

1. Charging base: connect the base to a certified DC 5V USB power source, then place the shaver upright on the base.
2. USB-DC: insert the DC plug into the shaver, then connect the USB end to a DC 5V 1A source.
3. USB Type-C: use a compatible cable if required.

The supplied cable is USB-DC. USB Type-C cable and power adapter are not included.

Charging Precautions

- Switch off before charging; keep all charging contacts clean and dry.
- Disconnect when fully charged. Do not use multiple charging methods at the same time.

For long-term storage, recharge the battery at least once every 3 months.

Battery Status & Travel Lock

Battery status light

GREEN - STEADY	Higher remaining charge
YELLOW - STEADY	Medium remaining charge
RED - FLASHING	Below 10%; recharge soon

While charging

RED flashing -> YELLOW flashing -> GREEN flashing -> GREEN steady (fully charged).

Travel lock

1. With the shaver switched off, press and hold the ON/OFF switch for about 3 seconds.
2. The logo status light flashes to confirm that the travel lock is active.
3. Press and hold again for about 3 seconds to unlock.

The Model logo window is a color battery-status light; it does not show a numeric percentage.

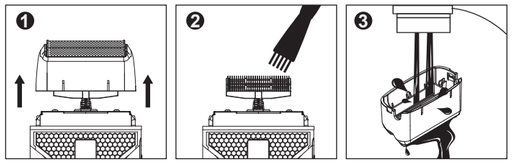
Shaving & Cleaning

Before and during shaving

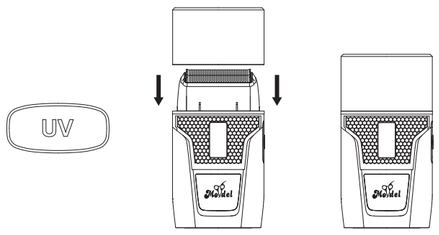
- Use only on healthy skin. Trim long hair first with a clipper or trimmer.
- Check that the foil is clean, dry, and undamaged.
- Keep the foil flat against the skin and move slowly against hair growth.
- Use light pressure; do not repeatedly shave irritated areas.

Cleaning instructions

1. Switch off and disconnect the shaver from the power source.
2. Pull the foil frame straight up to remove it from the shaver body （Fig. 1）
3. Brush loose stubble from the foil frame and inner cutters (Fig. 2)
4. If rinsing is required, rinse only the removable foil assembly under clean water （Fig. 3）
5. Allow all parts to dry completely before reassembly and before fitting the UV cap.



UV Sanitizing



How to use the UV function

1. Switch off the shaver and remove loose hair from the shaving head.
2. Dry the shaving head completely.
3. Fit the protective cap fully to start the UV cycle.
4. The cycle runs for about 3 minutes, then switches off automatically.

Do not look directly at the UV lamp. UV treatment does not replace manual cleaning.

Tested UV performance

Laboratory test: 97.6%-99.8% reduction across E. coli 8099, S. aureus ATCC 6538, and C. albicans ATCC 10231 after 3 minutes at 1 cm. Report WJ2025001261E; results apply only to the tested sample and conditions.

Foil & Cutter Care

Foil handling

- The shaving foil is delicate. Handle it gently.
- Do not press hard on the foil during shaving or cleaning.
- Replace the foil if it is dented, cracked, loose, or worn.
- Never use the shaver with a damaged foil.

Cutter care

- Brush loose stubble from the inner cutter area after every use.
- Rinse only the removable foil assembly as described in the cleaning instructions.
- Allow all parts to dry completely before fitting the UV cap.
- Keep the UV cap window and contact area clean and dry.

Use only replacement foils and cutters compatible with model ML-9325S.

Troubleshooting & Storage

Issue	Check / Solution
Will not start	Unlock; recharge; check source
Pulls hair	Clean foil/cutters; trim long hair
Not shaving closely	Clean; replace worn or damaged foil
Unusual noise	Switch off; clean and refit foil
UV will not start	Dry head; refit cap fully

Storage

- Switch off, clean, and dry the shaver before storage.
- Install the protective cap and store in a dry, ventilated place.
- Keep the cable loosely coiled and away from heat or heavy objects.

Battery & disposal

- Do not put the product or built-in battery in household waste.
- Do not burn, puncture, crush, short-circuit, or dismantle the battery.
- Take the complete product to an approved e-waste or battery collection point.

Battery removal should be performed only when required by local rules or by qualified personnel.
